OBJECTIVE-: Aspiring Full Stack Web Developer with practical experience in building dynamic web applications, seeking an entry-level position to utilize skills in HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB to contribute to innovative projects.

EDUCATION

Bachelor of Engineering (BE)-: K.K Wagh Institute of Engineering, Nashik
Electronic & Telecommunication (E&TC), CGPA: 7.35

Aug 2019 – Oct 2023

SKILLS-:

- **Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Bootstrap, Tailwind CSS, EJS, Vite, Redux
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL (Basic)
- **Others:** REST API, Git, GitHub, Redux Toolkit

WORK EXPERIENCE-:

Intern | Website Design and Development

Feb 2023 – March 2023

Internshala

- Completed training in HTML, CSS, Bootstrap, DBMS, JavaScript, and React, building a solid foundation in both frontend and backend development.
- Designed and developed a responsive food delivery website using Bootstrap, HTML, CSS, and JavaScript, improving user experience with seamless navigation and mobile compatibility.

Intern | Website Design and Development

July 2023 – Aug 2023

Internship Studio

- Gained proficiency in frontend technologies, including HTML, CSS, Bootstrap, JavaScript, and React, through practical learning and applied these skills to deliver high-quality web designs.
- Developed a responsive E-commerce website design using Bootstrap, HTML, CSS, and JavaScript, enhancing user experience and interface consistency across devices.

PROJECTS-:

1 StayVista - Hotel Booking Web Application

- Built a full-stack hotel management app using the MVC framework with CRUD operations for hotels and reviews.
- Integrated user authentication with Passport.js and managed sessions using express-session.
- Designed dynamic pages with EJS and implemented responsive UI using Bootstrap, improving user experience.

2 Simple User Management System

- Designed a user management system for efficient CRUD operations on customer data.
- Used Express and Mongoose for web framework and MongoDB integration.
- Enhanced user experience with session management via express-session and real-time feedback using connect-flash and robust error handling.

3 React Mini Sticky Notes

- Created a sticky notes application using ReactJS and Vite.
- Allowed users to add, mark, unmark, and delete notes.
- Focused on a clean and intuitive UI for efficient note organization.

4 Portfolio Website

- Developed a personal portfolio showcasing skills, projects, and contact information, utilizing HTML, CSS, and JavaScript.
- View Portfolio: <https://prajwalnikam7131.github.io/fullstack-dev-portfolio/>

Academic Project-:

A Project report on Design and Implementation on AI Based Agri Robot: Engineered an Intelligent Agri Robot for autonomic grass density detection and targeted herbicide spraying, paired with a mobile control system via an Android app for remote operation and real-time weed management monitoring.
